

MONDAY, September 15: Don't miss this program! **Steve Wilde**, Vice-President of Wolfe's Cameras, Camcorders & Computers will present a program titled, "Technology Today: Living in the digital age and preserving memories for tomorrow". **Lion Irene Owen** will introduce the speaker.

LAST MONDAY: **Lion Irene Owen** introduced **Mr. Lynn Smith** from **Safe Streets**, introducing the Lions present to this program. It is amazing how many great programs in our community go unknown simply because we don't have people like Lynn talking to us about how much good they do. His presentation was most interesting and informative.

ANNOUNCEMENTS:
